Product Lines

Hamilton Scientific Collegedale is a manufactured laboratory casework line with styling that is uniquely suited to science education.

- Available in oak or maple with reveal or lipped overlay styles
- Collegedale is functional and flexible enough to fit any classroom or laboratory environment

Hamilton Scientific Gold exceeds manufactured laboratory casework standards with highly configurable, fully-parametric sizing, expanded veneer selections and broadened hardware offering.

- Available in reveal, lipped and flush overlay construction
- Gold delivers options desired in higher education environments and research labs

Hamilton Scientific Platinum products offer the widest array of veneer selections, unit body sizes and hardware.

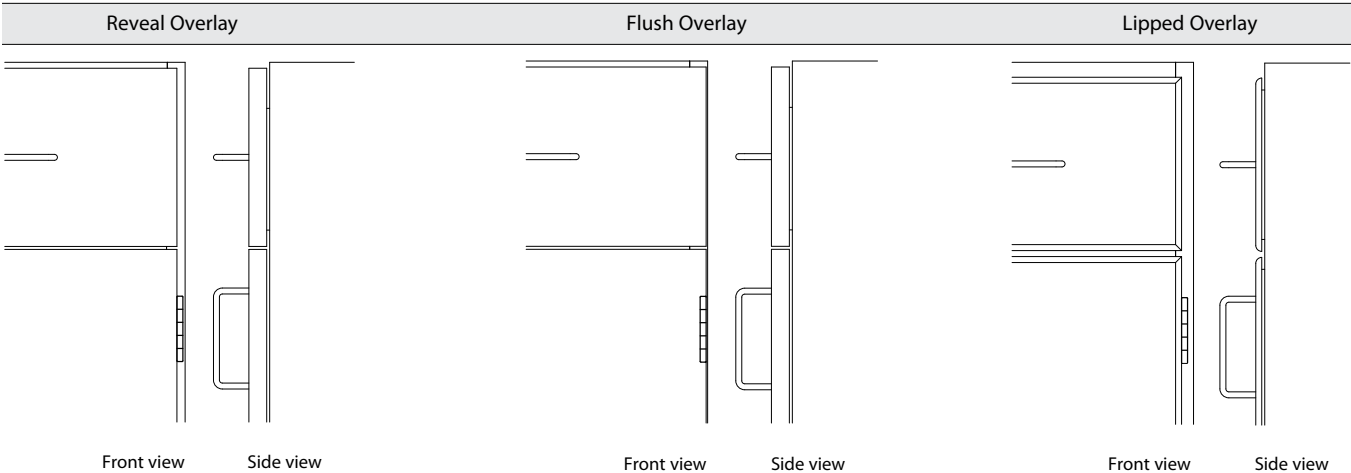

- Architectural mill work available in reveal, lipped and flush overlay construction
- Platinum is the premier choice for lab planners and designers

## Lock and Key Sequencing Options

### All Locks Keyed Alike

All locks are keyed alike with a single key to open all locks.

Available lock styles and options:

- 5-disc tumbler
- 5-pin tumbler

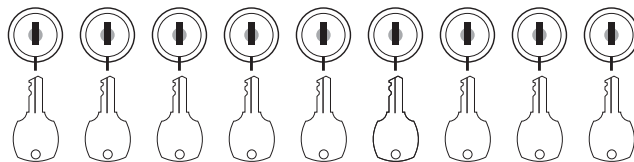

### All Locks Keyed Different

All locks randomly keyed with individual keys per lock. Each key opens only one lock.

Available lock styles and options:

- 5-disc tumbler
- 5-pin tumbler

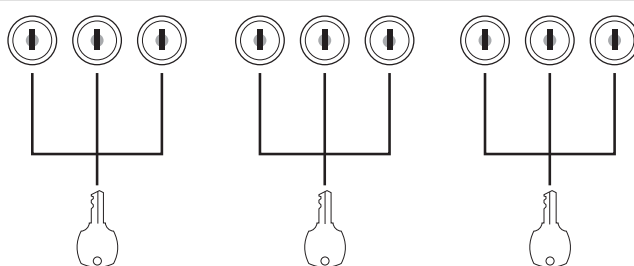

### Locks Keyed Alike in Sets

Locks are grouped into as many sets as required. One key can operate all locks within a set, but cannot open locks within another set. No key can open all locks.

Available lock styles and options:

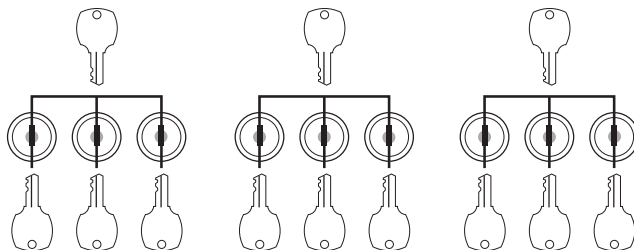

- 5-disc tumbler
- 5-pin tumbler

### Master Keyed

All locks randomly keyed with individual keys per lock and grouped into as many sets as required. Each key opens only one lock, but a master key is issued per set which can open any lock within the respective set.

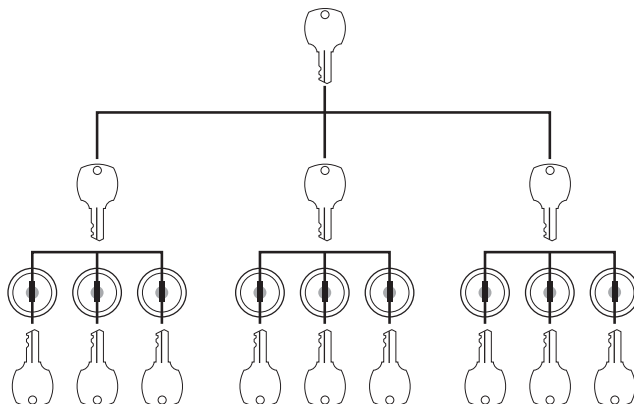

Requires 5-pin tumbler

### All Locks Keyed Different – Grand Master and Master Keyed

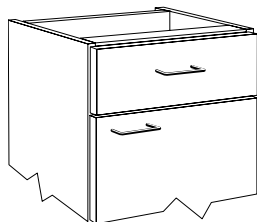

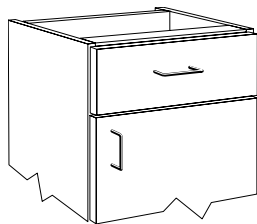

All locks randomly keyed with individual keys per lock and grouped into as many sets as required. Each key opens only one lock, but a master key is issued per set which can open any lock within the respective set. A grand master key is also issued which can open all locks in all sets.

Requires 5-pin tumbler

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

|                          | Provide description for each nonstandard option | X1, X2, X3...      |

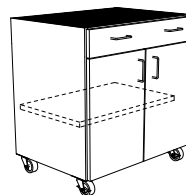

## Mobile Configurations

- To specify mobile configuration, add L1 option code to unit options
- Mobile units include two (2) swivel casters, two (2) locking casters, black plastic laminate top and anti-tip mechanism
- Specify finished ends and finished backs separately

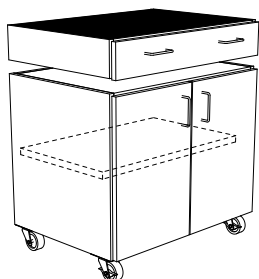

Original Style  
W10500-302225

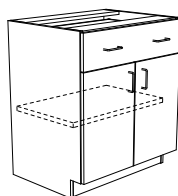

Mobile Configuration  
W10500-302225-L1

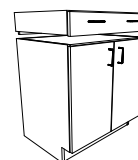

## Add-a-Drawer Configurations

- To specify mobile configuration:
  - add M1 option code to unit options for mobile configuration
  - add P1 option code to unit options for fixed configuration
- Top drawer(s) of base unit becomes a removable module secured with locking mechanism
- Mobile Add-a-Drawer units include two (2) swivel casters, two (2) locking casters, black plastic laminate tops on both mobile unit and removable module, and anti-tip mechanism
- Specify finished ends and finished backs separately

Original Style  
W10500-302225

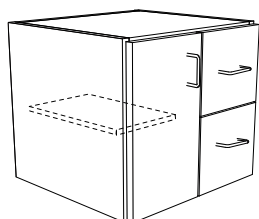

Add-a-Drawer Configuration  
W10500-302225-P1

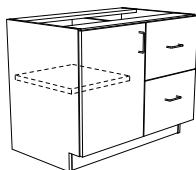

Mobile Add-a-Drawer Configuration  
W10500-302225-M1

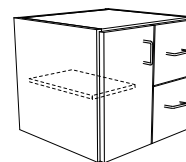

## Suspended Configurations

- To specify suspended configuration, add N1 option code to unit options
- Suspended units include finished top and bottom
- Specify finished ends and finished backs separately
- Order mounting hardware separately

Original Style  
W10500-302225

Suspended Configuration  
W10500-302225-N1

## Base Units

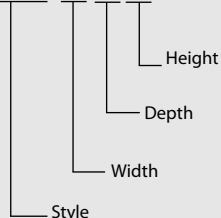

### Unit Sizes

- Standard base unit widths: 12", 15", 21", 24", 30", 36", 42" and 48"
- Standard base unit depth: 22"
- Standard base unit heights:
  - 29" sitting (30" H with work surface)
  - 31" intermediate (32" H with work surface)
  - 33" ADA (34" H with work surface)
  - 35" standing (36" H with work surface)

### Non-cataloged Unit Sizes

- Specify non-cataloged unit sizes by replacing the two characters representing width, depth or height within the product number string:

W10600 - 36 22 35 - A1B1... (additional options)

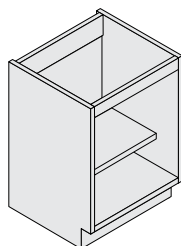

- Available in cataloged dimensions only:
  - Collegedale units, all styles
  - Gold or Platinum, lipped overlay style
  - ♦ All lipped overlay units are nominally sized; refer to product number example on page 20 for details

### Additional Options

- Specify by adding the two character fields after the style, width, depth and height
- The following base unit options are available (see product number example on page 20 for specifying information):
  - Left, right or both cabinet ends finished
  - Locks on all door(s) and drawer(s)
  - Standard or premium pullboards
  - Extended ends (up to 28" deep overall end panels)
  - Side toe-kicks
  - Finished backs
  - Label holders
  - Number plates
  - Available with pull out shelf(s)
  - Pull out trays
  - Mobile configurations refer to page 22
  - Add-a-Drawer configurations refer to page 22

Refer to Options Menu, pages 4–22

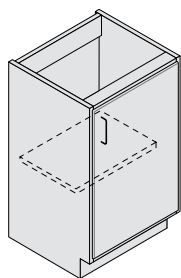

## Open Units

- One adjustable shelf

Unit Sizes

- Standard wall unit widths: 12", 15", 21", 24", 30", 36", 42" and 48"
- Standard wall unit depths: 13" and 16"
- Standard wall unit heights: 24", 30", 36" and 48"

Non-cataloged Unit Sizes

- Specify non-cataloged unit sizes by replacing the two characters representing width, depth or height within the product number string:

W10600 - 36 22 35 - A1B1...(additional options)

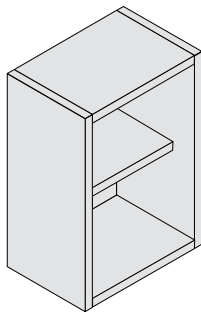

- Available in cataloged dimensions only:
  - Collegedale units, all styles
  - Gold or Platinum, lipped overlay style
    - ♦ All lipped overlay units are nominally sized; refer to product number example on page 20 for details

Additional Options

- Specify by adding the two character fields after the style, width, depth and height
- The following base unit options are available (see product number example on page 20 for specifying information):
  - Left, right or both cabinet ends finished
  - Locks on door(s) and drawer(s)
  - Label holders
  - Number plates

Refer to Options Menu, pages 4–22

## Sloping Tops

- For use with wall and tall units
- 6" high at rear

| Width        | Product Number |
|--------------|----------------|
| 12" (305mm)  | W20020-121206  |
| 15" (381mm)  | W20020-151206  |
| 18" (457mm)  | W20020-181206  |
| 21" (533mm)  | W20020-211206  |
| 24" (610mm)  | W20020-241206  |
| 27" (686mm)  | W20020-271206  |
| 30" (762mm)  | W20020-301206  |
| 36" (914mm)  | W20020-361206  |
| 42" (1067mm) | W20020-421206  |
| 48" (1219mm) | W20020-481206  |

- For use with wall corner units
- 6" high at rear

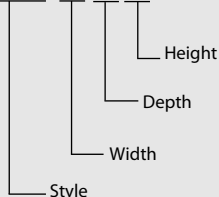

| Width     | Product Number |
|-----------|----------------|
| 12" x 12" | W20030-121206  |
| 16" x 16" | W20030-161606  |

## Unit Sizes

- Standard tall unit widths: 12", 15", 21", 24", 30", 36", 42" and 48"
- Standard tall unit depths: 18" and 22"
- Standard tall unit height: 84"

## Non-cataloged Unit Sizes

- Specify non-cataloged unit sizes by replacing the two characters representing width, depth or height within the product number string:  
W10600 - 36 22 35 – A1B1...(additional options)

- Available in cataloged dimensions only:
  - Collegedale units, all styles
  - Gold or Platinum, lipped overlay style
    - ◆ All lipped overlay units are nominally sized; refer to product number example on page 20 for details

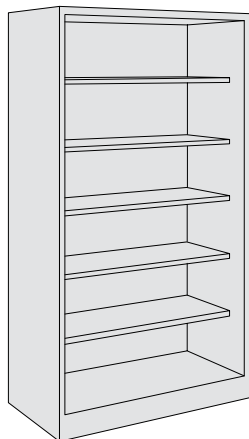

## Additional Options

- Specify by adding the two character fields after the style, width, depth and height
- The following base unit options are available (see product number example on page 20 for specifying information):

- Left, right or both cabinet ends finished
- Locks on door(s) and drawer(s)
- Standard or premium pullboards
- Side toe kicks (front toe kicks standard)
- Label holders
- Number plates

Refer to Options Menu, pages 4–22

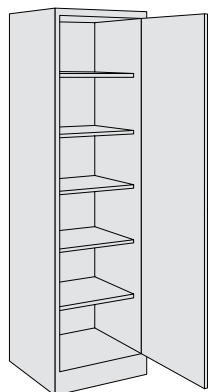

## Open Units

- One (1) fixed and four (4) adjustable shelves
- Shown with optional flush toe kick

| Width        | Height        |
|--------------|---------------|
|              | 84"           |
| 12" (305mm)  | W30100-122284 |

| 60" (1524mm) | W40310-602205 | 2                      |
| 72" (1829mm) | W40310-722205 | 3                      |

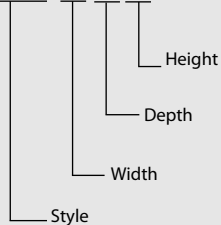

## Unit Sizes

- Standard widths: 3", 6", 12", 15", 21", 24", 30", 36", 42", 60" and 72"
- Standard panel thickness is .75" (specify using two-digit character "01")
- Standard heights:
  - 29" sitting (30" H with work surface)
  - 31" intermediate (32" H with work surface)
  - 33" ADA (34" H with work surface)
  - 35" standing (36" H with work surface)

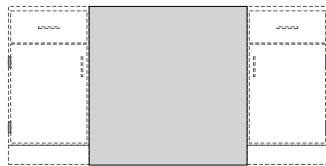

## Non-cataloged Unit Sizes

- Specify non-cataloged unit sizes by replacing the two characters representing width, depth or height within the product number string:

W10600 - 36 22 35 - A1B1...(additional options)

## Kneespace / Modesty Panels (fixed)

- Reduce panel height by height of kneespace apron frame or rail (if present)
- Panels over 48" wide are provided in two (2) pieces

| Width        | Height        |               |               |               |
|--------------|---------------|---------------|---------------|---------------|

## Single Support Legs

- Leg is 2-1/2" x 2-1/2" square
- Includes black vinyl boot and leveler

| Height        |               |               |               |
|---------------|---------------|---------------|---------------|
| 29"           | 31"           | 33"           | 35"           |
| W41200-020229 | W41200-020231 | W41200-020233 | W41200-020235 |

## Table Frame Sizes

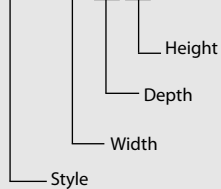

- Standard widths: 24", 30", 36", 42", 48", 60", 72", 84", 96", 108" and 120"
- Standard depths: 24", 30" and 36"
- Standard heights:
  - 29" sitting (30" H with work surface)
  - 31" intermediate (32" H with work surface)
  - 33" ADA (34" H with work surface)
  - 35" standing (36" H with work surface)

Refer to work surfaces on page 88–89

## Non-cataloged Unit Sizes

- Specify non-cataloged unit sizes by replacing the two characters representing width, depth or height within the product number string:

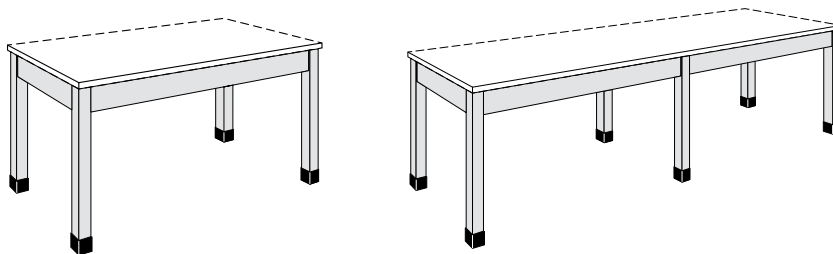

W10600 - 36 22 35 - A1B1...(additional options)

## Additional Options

- Specify by adding the two-character fields after the style, width, depth and height
- The following base unit options are available (see product number example on page 20 for specifying information):
  - Locks on all drawer(s) and drawer(s)
  - Mobile configurations

## Standard Table Frames

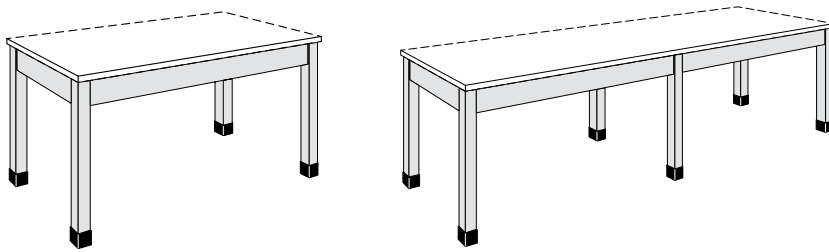

- Table frame sizes reflect work surface dimension. Actual table frame size is reduced to provide a 1" overhang on all sides
- Black vinyl boots and levelers included
- Table frames 84" and over have three (3) pairs of legs
- Order work surface separately, refer to pages 88–89

## 29" High Table Frames

| Width         | Depth          |                |                |                |                |

## Edison Adjustable Table Frames

- Table frame sizes reflect work surface dimension. Actual table frame size is reduced to provide a 1" overhang on all sides
- Versatile adjustable height table
- Steel frame
- Telescoping stainless steel legs, height adjustable 30"–38" in 1" increments, with levelers
- Easy-to-use pin and socket style adjustment mechanism
- 7" rail on three (3) sides, 1-1/2" rail at front side
- Order work surface separately, refer to page 88–89

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

- The standard color work surface for epoxy resin, plastic laminate and chemical resistant plastic laminate is black
- Please contact your local Hamilton Scientific sales representative to select nonstandard colors or obtain samples
- Stainless steel work surfaces are also available with or without a marine edge

### Work Surface Performance Properties

- Standard epoxy resin work surfaces are 1" (250mm) thick; 1-1/4" (320mm) thick work surfaces are available
- Stainless steel work surfaces (with standard or marine edge) are available on special order

| Use with Fume Hoods     | Not recommended                                                                                                       | Not recommended                                                                          | Recommended                                                       | Recommended                                                           |
| Suggested Use Areas     | General-purpose areas requiring limited heat resistance and no chemical resistance                                    | Areas requiring limited chemical and heat resistance                                     | Areas requiring exceptional chemical and heat resistance          | High-moisture areas; areas subject to fire and abrasion               |

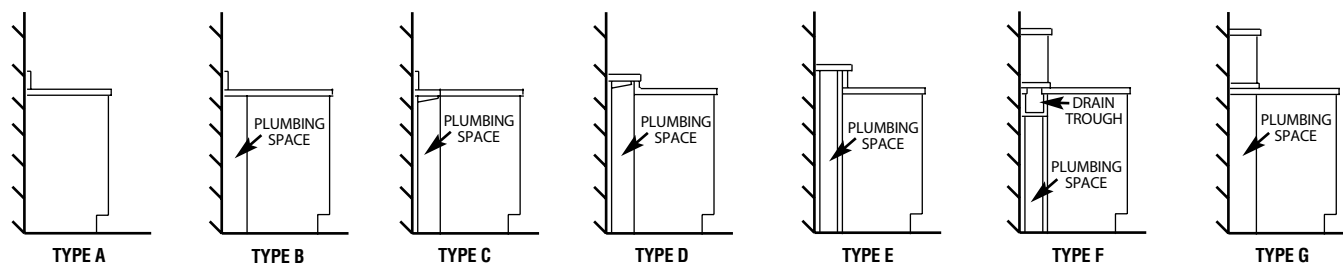

\*Load capacities are also determined by supporting structures

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

## Work Surface Designs

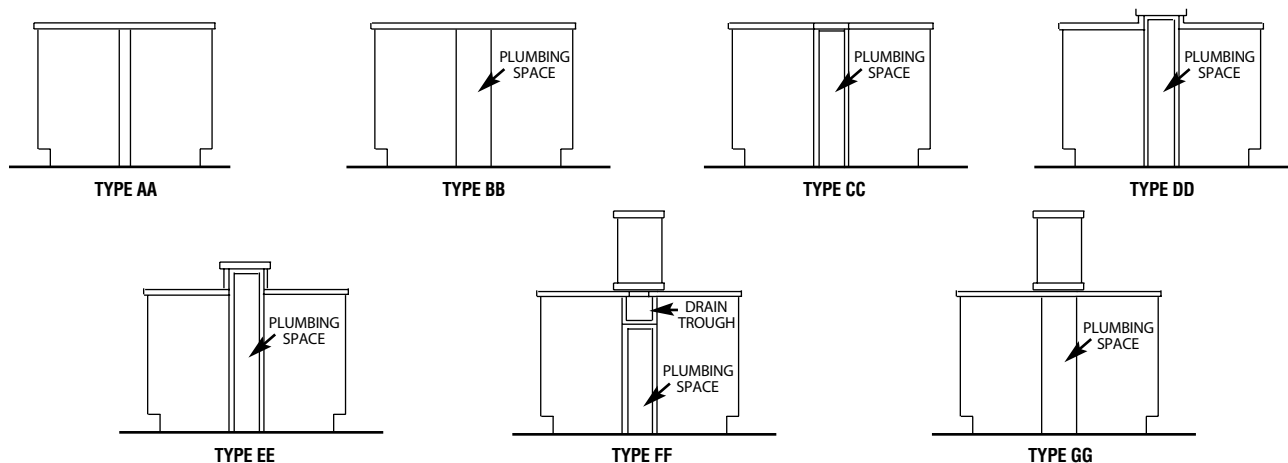

- Various wall and center (island and peninsula) configurations are possible
- Center configurations are used in island and peninsula arrangements

## Wall Configurations

- Type A Basic work surface arrangement with 24" (610mm)-wide top and 4" (102mm)-high curb, intended for areas that do not require service.
- Type B Includes space for service piping and wiring, solid top, 30" (762mm) wide, with a 4" (102mm)-high curb.
- Type C Features divided top and service strip to allow for plumbing and electrical installation before cabinet assembly.
- Type D Features a raised, coved low curb and shelf which is desirable for numerous procedures.
- Type E Standard-type 6" (152mm)-high box-curb construction, required when services are to be curb- or shelf-mounted.
- Type F Includes a standard reagent rack and permits installation of drain trough.
- Type G Includes standard reagent rack used when drain trough not required.

## Center Configurations

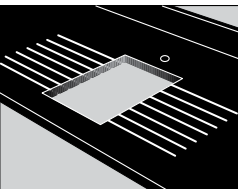

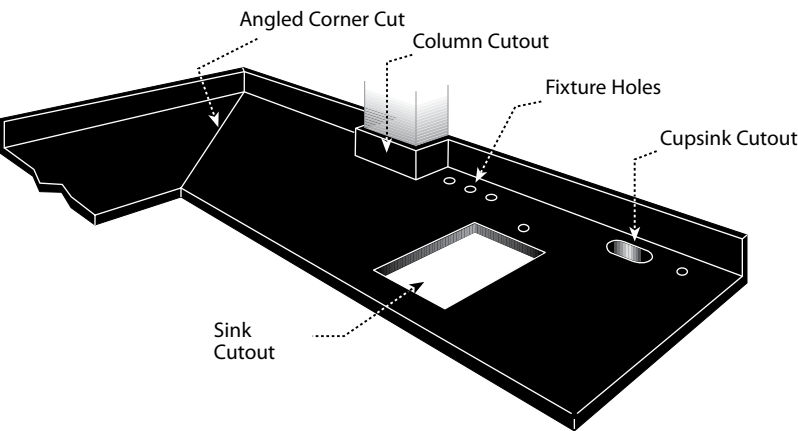

- Type AA Basic work surface arrangement with 48" (1219mm)-wide top, intended for areas that do not require services.
- Type BB Includes space for service piping and wiring with solid top 54" (1372mm) wide.
- Type CC Features divided top and service strip to allow for plumbing and electrical installation before cabinet assembly and to simplify the planning and grouping of service installations.
- Type DD Features a raised coved low curb and shelf desirable for numerous procedures.
- Type EE Standard-type 6" (152mm)-high box-curb construction, required when services are to be curb- or shelf-mounted.
- Type FF Includes a standard reagent rack and permits installation of drain trough.
- Type GG Includes a standard reagent rack used when drain trough not required.

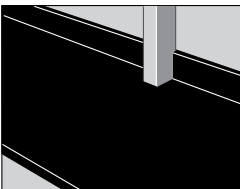

Dimensions are nominal. Illustrations and specifications are based on the latest product information available at the time of publication.

Ordering Standard Work Surfaces with Custom Fabrication

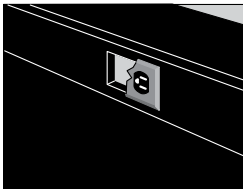

- 1. Select a work surface configuration from drawings on page 91
- 2. Select a work surface material from the Performance Properties chart on page 90
- 3. Select the appropriate product number for each custom fabrication item from the chart below.
- 4. To order, list the total quantity of each custom fabrication item followed by its corresponding product number for each individual work surface.
- 5. Orders for work surfaces with custom fabrication must be accompanied by drawings showing the size and location of each custom fabrication item.
